

Free Technology Assessment

What we are offering:

100% Free, No obligation, IT Audit and Assessment

One of our Microsoft Small Business Specialists will spend 1-2 hours (depending on company size) investigating the status of your network with regards to storage, speed and security and then talk to you to find out how we could assist you to:

- ✓ **Help you achieve your business goals**
- ✓ **Provide a clear return on investment**
- ✓ **Help you run your business more efficiently, wherever it takes you**

What you will receive:

Our free report is based not only on an evaluation of the strengths and weaknesses of your IT infrastructure and processes, but also an examination of the key aspects of how technology is used in your organization. The report will include and assess these key areas:

- ✓ **Business Systems & Technical Infrastructure**
- ✓ **Business needs and IT strategy**
- ✓ **Potential costs and benefits of strategic technology solutions**

Why do you need a Technology Assessment?

Ask yourself these questions :

- Are you comfortable with your current technology investments and are they in line with your business goals and strategic objectives?
- Does your current technology deliver clear bottom-line benefits for your company?
- Are you confident that you can build a business case to evaluate new technology and deploy it in your business?
- Are the benefits of IT in your business easily quantifiable when compared to cost?

If you have any doubts relating to the above questions, then NPIT can be of service to your organisation. Together, we can plan the most effective solution to address your specific business issues, develop a business case and create an implementation strategy to achieve your desired results.

Our Technology Assessment Can Help!

If you are ready to begin the process of ensuring that your IT Solutions will have bottom-line business benefits, we can help by enabling your organisation to maximise your technology investment and achieve significant business improvement. Upon completion of the assessment you will receive a proposal that will help you choose the right solutions based on your business objectives.

To get started please email simon@npit.co.uk expressing your interest, and we will contact you to discuss the next steps in the technology assessment process. (Please note: This free assessment is only available to small and medium size businesses in the South London Area)
